

Please allow XM radio to continue broadcasting the selection of programs that it's subscribers request, like, and enjoy.
Chip Pickering is from my home state. I'll be in touch with him also.

The NAB has no right to limit the options available on my paid for, XM service, since they don't pay for it. They only pay by offering and supporting the offering of inferior service which their listeners and thereby advertisers acknowledge by taking their dollars elsewhere.

Thank you,
Jay S. Mahaffey
